

What is Passport's Seller of Record (SOR) Program?

The Seller of Record program allows brands to use Passport's UK VAT number to clear shipments through the United Kingdom (UK). In the UK, all merchants must register for a VAT ID and pay a value-added tax (VAT) on any imported products, regardless of the value. By utilizing Passport's SOR solution, we'll take care of all aspects of collecting and remitting UK import taxes to HM Revenue & Customs (HMRC).

Seller of Record Program Benefits:

-  **Gain and maintain access to the UK market with ease**
-  **Save time and money by avoiding registrations and filings**
-  **Improve customer experience with a seamless shipping process**

What's the cost?

Passport Global™ includes SOR in the platform fee. For **Passport Shipping™**, the SOR fee is 5% of the VAT amount (VAT is calculated on CIF value which includes the product price, shipping, and insurance).

Here's a 20% VAT Example:

Product price:	£41	Insurance:	£1
Shipping cost:	£8	VAT:	£10
Our fee:	£0.50 (separate from VAT collected)		

Passport Makes VAT Compliance Easy:

How do I sign up?

To get started, simply let your designated Passport® contact know of your interest or [reach out to us here](#). Our onboarding team can get you up and running in no time.
